

# Most sex manuals are written by doctors. These were written by lovers.

These are large format, luxuriously bound hard cover editions, dashinglly illustrated with scores of vivid photographs. Together these books form the most stimulating and avant-garde marriage manual ever published.

Most sex manuals are written by married doctors — scientists of sex rather than artists. Maybe that's why most sex manuals seem so clinical and joyless. Why you're often left with the feeling you haven't learned anything new or liberating at all.

Not true with HOW TO MAKE LOVE TO A SINGLE MAN and HOW TO MAKE LOVE TO A SINGLE WOMAN. Taken together, these two books form the most avant garde and futuristic sex or marriage manual ever written. Maybe that's because their authors are sensual, good-looking, and creative — practicing lovers instead of the usual married middle-class doctor.

Take HOW TO MAKE LOVE TO A SINGLE MAN. The authoress is Maggie R., a stunning, brilliant thirty year old divorcee. Maggie's experience with men has been global. Passionate shipboard romances on the Adriatic, midnight lovemaking on trains speeding across the Yugoslav countryside, sun-bathing and frolicking among a nude colony of hippies on the southern coast of France.

Maggie draws upon all her lush and colorful experience to show you how to open up to your love, how to reach out to him. Here are just a few of the techniques and ideas you will discover in her wildly inspiring book:

- How to make a man look at you • How to dress sexier and feel good about it • How to arouse a man with just words • How to develop your kissing power • How to make love to your man's entire body • How to excite a man by taking control • The joys of kinky sex • How to make love under water • How to choose a man who wants a good lover.

Maggie R.'s counterpart is Robert M., author of HOW TO MAKE LOVE TO A SINGLE WOMAN. Robert is in his thirty's and lives in Greenwich Village. His experience with women is colorful and creative, including mad and passionate love affairs with New York's most beautiful actresses, models, stewardesses, writers, and belly dancers. Robert can tell you how to get a woman to trust you only minutes after you first meet, how you can relate to women as you've never related to them before. Here are some of the techniques you will learn in his stimulating, mind-opening book:

- How to become the kind of man women instantly recognize as a great lover • How to look in a woman's eyes

- How to get a woman to fantasize about you

- How to use dancing and massages to add intensity to your love-making • How to arouse a woman with a single kiss • What position your lover will like best • How to be gentle with a woman and why this is so important.

It doesn't make any difference whether you're single or married. These two books will show you how to achieve a joy and pleasure you may have fantasized about but never actually experienced. Well, this intense joy and pleasure can be experienced. In real, everyday life. And there's no surer way to experience

it than through HOW TO MAKE LOVE TO A SINGLE MAN and HOW TO MAKE LOVE TO A SINGLE WOMAN. Either book is excellent for singles, and read together they make an unparalleled marriage manual for couples. If you'd like to put more excitement into your love life these books are the best medicine money can buy.
